## Item 5. Other Events

As previously disclosed, in 2002 PG&E National Energy Group, Inc. (PG&E NEG), a subsidiary of PG&E Corporation, reclassified the operations of its subsidiary, USGen New England, Inc., to discontinued operations. Subsequent to the issuance of PG&E NEG's 2002 consolidated financial statements, management discovered a misclassification of certain offsetting revenues and expenses between discontinued operations and continuing operations of PG&E NEG.

PG&E NEG will revise its 2002 Form 10-K/A to reclassify certain offsetting revenues and expenses, which net to zero. The revision is strictly a reclassification of approximately \$470 million of revenues and expenses from discontinued operations to continuing operations. The reclassification will result in no change in PG&E NEG's operating income, net income, balance sheet or cash flow. The only impact of the reclassification is an increase in operating revenues offset by an equal increase in operating expenses in its consolidated statements of operations.

In addition, PG&E Corporation will similarly revise its 2002 Form 10-K/A to reflect these changes in revenues and expenses, which will result in no change in operating income, net income, balance sheet or cash flow.
