PG&E Corporation Reports Second-Quarter 2019 Financial Results

- Recorded GAAP losses were \$4.83 per share for the second quarter of 2019, compared to losses of \$1.91 per share for the same period in 2018.
- Non-GAAP earnings from operations were \$1.10 per share for the second quarter of 2019, compared to \$1.16 per share for the same period in 2018.

SAN FRANCISCO — PG&E Corporation's (NYSE: PCG) recorded second-quarter 2019 net losses attributable to common shareholders were \$2.6 billion, or \$4.83 per share, as reported in accordance with generally accepted accounting principles (GAAP). This compares with net losses attributable to common shareholders of \$984 million, or \$1.91 per share, for the second quarter of 2018.

GAAP results include items that management does not consider part of normal, ongoing operations (items impacting comparability), which totaled \$3.1 billion after-tax, or \$5.92 per share, for the quarter. This was primarily driven by an additional \$3.9 billion pre-tax charge for estimated third-party claims related to the 2017 Northern California wildfires and the 2018 Camp fire. This additional charge reflects, among other things, the previously announced agreement with local public entities to resolve their wildfire-related claims, the status of PG&E's efforts to reach a resolution with other holders of wildfire-related claims and additional information from Cal Fire.

Items impacting comparability for the quarter also include enhanced and accelerated electric asset inspection costs; clean-up and repair costs related to the 2018 Camp fire; legal and other costs related to the 2017 Northern California wildfires and the 2018 Camp fire; and financing, legal, and other costs related to PG&E Corporation's and Pacific Gas and Electric Company's (Utility) reorganization cases under Chapter 11 of the U.S. Bankruptcy Code (Chapter 11).

"Our primary focus areas are to further reduce the risk of wildfires in the communities we serve, to improve our safety and operational performance across the board, and to move expeditiously through the Chapter 11 process, which includes paying wildfire victims fairly and as soon as possible. We recognize we are operating from a deficit when it comes to public trust, and to regain that trust, we must sustain excellent operational performance day after day, month after month, year after year. That's what my 23,000 colleagues at PG&E are striving to achieve," said PG&E Corporation Chief Executive Officer and President Bill Johnson.

Progress Report

Over the past several months, the company has made significant headway on operational improvements, wildfire victim compensation, and the Chapter 11 process:

- PG&E has nearly completed enhanced and accelerated inspections of its electric infrastructure in high fire-threat areas. This work has included visual and aerial inspections of approximately 50,000 electric transmission structures, 700,000 distribution poles and 222 substations, covering more than 5,500 miles of transmission line and 25,200 miles of distribution line. The company is addressing immediate safety risks as they are identified during these inspections.
- PG&E announced \$1 billion in settlements with more than a dozen cities, counties and other jurisdictions regarding the 2018 Camp fire, 2017 Northern California wildfires and 2015 Butte fire.

- The Utility notified the California Public Utilities Commission (CPUC) of its decision to participate in the statewide fund, as established by California Assembly Bill (AB) 1054, which would be available for eligible electric utility companies to pay certain liabilities arising from future wildfires. The Bankruptcy Court must approve PG&E's participation in the fund and the required financing. The Utility expects that its initial contribution to the wildfire fund would be approximately \$4.8 billion, and that its annual contributions would be approximately \$193 million. The initial contribution would be payable upon the company's emergence from Chapter 11 reorganization.
- PG&E is preparing a Plan of Reorganization that will include: payment in full or reinstatement of all prepetition funded debt obligations; payment in full of all prepetition trade and employee-related unsecured claims; satisfaction of prepetition wildfire claims in amounts agreed upon or as otherwise approved by the Bankruptcy Court and consistent with the terms of AB 1054; rate neutrality for the Utility's customers; the assumption of all power-purchase agreements and community-choice aggregation servicing agreements; the assumption of all collective bargaining agreements; and certain other terms.

In addition, a refreshed Board of Directors is in place, with 12 new directors and two continuing directors, for PG&E Corporation and the Utility. Shareholders voted all directors to one-year terms at the companies' Annual Meetings of Shareholders on June 21, 2019.

Non-GAAP Earnings from Operations

PG&E Corporation's non-GAAP earnings from operations, which exclude items impacting comparability (IIC), were \$581 million, or \$1.10 per share, in the second quarter of 2019, compared with \$601 million, or \$1.16 per share, during the same period in 2018.

The decrease in quarter-over-quarter non-GAAP earnings from operations was primarily driven by various regulatory matters resolved in 2018 and having no similar 2019 impact, and 2019 vegetation management costs, partially offset by growth in rate base earnings.

PG&E Corporation discloses "non-GAAP earnings from operations," which is a non-GAAP financial measure, in order to provide a measure that allows investors to compare the underlying financial performance of the business from one period to another, exclusive of items impacting comparability. See the accompanying tables for a reconciliation of non-GAAP earnings from operations to consolidated loss attributable to common shareholders.

IIC Guidance

At this time, PG&E Corporation is not providing guidance for 2019 GAAP earnings and non-GAAP earnings from operations due to the continuing uncertainty related to the 2018 Camp fire, the 2017 Northern California wildfires, the Chapter 11 proceedings, and legislative and regulatory reforms. PG&E Corporation is providing 2019 IIC guidance of \$3.8 billion to \$4.1 billion after-tax for costs related to the 2017 Northern California wildfires, the 2018 Camp fire, enhanced and accelerated electric asset inspections, and Chapter 11-related matters. See the accompanying tables for additional information.

IIC guidance is based on various assumptions and forecasts related to future expenses and certain other factors.

Forward-Looking Statements

This press release contains forward-looking statements that are not historical facts, including statements about the beliefs, expectations, estimates, future plans and strategies of PG&E Corporation and the Utility, as well as forecasts and estimates regarding potential liability in connection with the 2018 Camp fire and 2017 Northern California wildfires, the Utility's Community Wildfire Safety Program, 2019 Wildfire Safety Plan, the Utility's participation in the statewide wildfire fund created by AB 1054 and PG&E Corporation's 2019 IIC guidance. These statements are based on current expectations and assumptions, which management believes are reasonable, and on information currently available to management, but are necessarily subject to various risks and uncertainties. In addition to the risk that these assumptions prove to be inaccurate, factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include factors disclosed in PG&E Corporation's and the Utility's annual report on Form 10-K for the year ended December 31, 2018, their joint quarterly reports on Form 10-Q for the quarters ended March 31, 2019 and June 30, 2019, and other reports filed with the SEC, which are available on PG&E Corporation's website at www.pgecorp.com and on the SEC website at www.sec.gov. Additional factors include, but are not limited to, those associated with the Chapter 11 cases of PG&E Corporation and the Utility that commenced on January 29, 2019. PG&E Corporation and the Utility undertake no obligation to publicly update or revise any forward-looking statements, whether due to new information, future events or otherwise, except to the extent required by law.

- (4) The Utility incurred costs of \$275 million (before the tax impact of \$77 million) and \$485 million (before the tax impact of \$136 million) during the three and six months ended June 30, 2019, respectively, for incremental operating expenses related to enhanced and accelerated inspections of electric transmission and distribution assets, and certain resulting repairs that are not probable of recovery.
- (5) The Utility incurred costs of \$56 million (before the incremental net tax expense of \$2 million) and \$183 million (before the tax impact of \$28 million) during the three and six months ended June 30, 2019, respectively, directly associated with PG&E Corporation's and the Utility's Chapter 11 Cases. This includes \$114 million (before the tax impact of \$32 million) during the six months ended June 30, 2019 for debtor-in-possession ("DIP") financing costs. The Utility also incurred legal and other costs of \$77 million (before the tax impact of \$4 million) and \$101 million (before the tax impact of \$5 million) during the three and six months ended June 30, 2019, respectively (\$64 million and \$82 million of legal and other costs during the three and six months ended June 30, 2019, respectively, are not tax deductible.) These costs were partially offset by interest income of \$21 million (before the tax impact of \$6 million) and \$32 million (before the tax impact of \$9 million) recorded during the three and six months ended June 30, 2019, respectively.

- (1) See previous exhibit for reconciliations of (i) earnings on a GAAP basis to non-GAAP earnings from operations and (ii) EPS on a GAAP basis to non-GAAP EPS from operations.
- (2) Represents the impact of various regulatory matters resolved during the three and six months ended June 30, 2018, with no similar impact in 2019.
- (3) Represents the increase in routine vegetation management costs incurred during the three and six months ended June 30, 2019, which are not recoverable through authorized revenue requirements.
- (4) Represents the timing of taxes reportable in quarterly statements in accordance with Accounting Standards Codification 740, *Income Taxes*, and results from variances in the percentage of quarterly earnings to annual earnings.
- (5) Represents insurance premium costs incurred in the first quarter of 2018, above amounts included in authorized revenue requirements, which became probable of recovery in the second quarter of 2018 as a result of the CPUC's June 2018 decision authorizing a WEMA, with no similar impact in 2019. Also represents lower insurance premium costs during the three and six months ended June 30, 2019, due to the accelerated amortization of a portion of the Utility's liability insurance premiums during the fourth quarter of 2018 as a result of the 2018 Camp fire.

Use of Non-GAAP Financial Measures
PG&E Corporation and Pacific Gas and Electric Company

PG&E Corporation discloses historical financial results and provides guidance based on “non-GAAP earnings from operations” and “non-GAAP EPS from operations” in order to provide a measure that allows investors to compare the underlying financial performance of the business from one period to another, exclusive of items impacting comparability.

“Non-GAAP earnings from operations” is a non-GAAP financial measure and is calculated as income available for common shareholders less items impacting comparability. “Items impacting comparability” represent items that management does not consider part of the normal course of operations and affect comparability of financial results between periods, consisting of the items listed in the first exhibit. “Non-GAAP EPS from operations” also referred to as “non-GAAP earnings per share from operations” is a non-GAAP financial measure and is calculated as non-GAAP earnings from operations divided by common shares outstanding (diluted). PG&E Corporation uses non-GAAP earnings from operations and non-GAAP EPS from operations to understand and compare operating results across reporting periods for various purposes including internal budgeting and forecasting, short- and long-term operating planning, and employee incentive compensation. PG&E Corporation believes that non-GAAP earnings from operations and non-GAAP EPS from operations provide additional insight into the underlying trends of the business, allowing for a better comparison against historical results and expectations for future performance.

Non-GAAP earnings from operations and non-GAAP EPS from operations are not substitutes or alternatives for GAAP measures such as consolidated income available for common shareholders and may not be comparable to similarly titled measures used by other companies.
